

Name : Verianti Liana
Position : CEO of MAGOODS Team

Verianti Liana has majored in agro-industrial technology at Brawijaya University since 2019. She is a 20 years old student with the principle of "Strive for Excellence" in doing every process of her life. Giving the best version of herself in every stage of her life makes her grow, learn a lot of new things, and create a valuable track record for her and her surroundings. Verianti has achieved various achievements both individually and in teams, since elementary school until now in the fields of arts, public speaking, education and business at the national and regional levels and she has received TELADAN scholarship from the Tanoto Foundation since 2020.

She was awarded as the star performer in the Tanoto Scholars Leadself Program for April-July 2020 period and currently serves as deputy head of the event department in Tanoto Scholars Association of Brawijaya University. She had been an environment ambassador for her school during her junior high school education in 2014-2016 and since then, her passion also grows in Sustainable Development Goals program. The ability to think critically, innovatively, and

creatively in conceptualizing her ideas into a complex, unique, and directed along with the realistic frame of mind to be implemented are her strengths. During her 3rd semester in university, she became the leader of the research and technology competition team which had received funding from the Tanoto Foundation through the Tanoto Student Research Award competition in 2020, in which her writing was "ALERTA: Apple Peel Dryer Using Electro-osmotic and Ultrasound Combined with Tray Dryer" had registered as the copyright in Indonesia's intellectual property right. All of her achievements are regarded as the chances of doing her passions and the feedback or development parameter for her to always progress to be better than yesterday. She believes that the process to achieve something plays an important role in improving human abilities, including herself so she explores and puts her best effort in every competition along with her passions in technology, education, SDGs, entrepreneurship, and continually improving herself to be "The Best Version of Verianti Liana".
